

New to Toolbox PRO (not included in brochure). 2/28/09

Sharable Whiteboard – teachers can hold a “virtual class” live using an online whiteboard.

Desktop Webinar – teachers can hold a “virtual class” live and broadcast their desktop with audio to their students!

Full Screen Video Conference - use a webcam and fullscreen video to collaborate with other classrooms

Student Messaging - Students can send (email) messages to other student and teachers (w/attachments). Teachers can monitor student messages and also create a word “Filter” to “Flag” messages with inappropriate language.

Student Web Lockers – students can now store files online!

Blogging! – Teachers and students can have their own blog. Teacher maintains control of comments and publishing actions for student blogs.

Wikis – Teachers and students can interact through class Wikis. Teacher maintains control of comments and publishing actions for the wiki.

Podcasting! – Record audio or video podcasts or upload your own and allow users to subscribe to your feeds.

Custom Style Tests – Teachers can create a custom style for their online tests (background image, font size, etc).

Student Homework Drop-off Tool – now students can upload their homework assignments for the teacher to view.

Online Math Equation Editor – math teachers can now create complex equations and insert them into online assessments.

Students can also use the online equation editor to solve teacher equations in assessments.

Coming Soon.....Wiki's and Lesson Planner!
